

Limited liability Company “Optimconsult” is an accountancy company, which was founded on June 21, 2005. We render external financial and accountancy services, offer auditing and inspection services, tax consultations and registration of companies.

Our approach in providing financial services is based on needs of our clients to promote and contribute in development of their business. We pay great deference and attention to our clients. Our company believes that every client is special and important, therefore any financial information is confidential.

Taking into consideration increasing requirements in the field of accounting, we deem improvements in quality of rendered services to be one of the main tasks, so that clients could receive timely, important, objective and comparable information on their company's economic activity.

For implementation of the abovementioned principles, policy of the company is based on the following guidelines:

- Identification of client's needs and rising of our service rendering level;
- Development of client-friendly price policy;
- Fulfilment of all requirements stipulated in laws and regulations of the Republic of Latvia;
- Identification and reduction of potential risks;
- Raising the professional qualification of the personnel and development of personnel responsibility.

Our mission: To render qualitative accounting and financial services for ensuring successful commercial business of the client.

Our vision: *We are working to become a modern company that has perfect reputation and provides qualitative services to every entrepreneur.*

We are ready to provide qualitative accounting and financial services to your company.
